

## PICANET DATA REQUESTS

To comply with contractual obligations, HQIP who are the Data Owner of data collected by PICANet from English PICUs, require all data requests to follow a specific procedure.

If your data request includes data from English PICUs:

### Step 1:

Please complete the PICANet online request form as usual. PICANet will send your data request to our Clinical Advisory Group for comment and approval after we have checked it is feasible.

### Step 2:

HQIP have two forms which need completing: a data access request form and a data sharing agreement. Guidance on the HQIP data access process and the required forms are available on the [HQIP website](#).

The HQIP data access request form must be signed by PICANet before HQIP will consider the request. This means you must send PICANet the completed HQIP data access request form.

The PICANet team are happy to guide and answer any questions you have about the process. For more details please visit the [website](#).

## RCP ASTHMA AUDIT

The Royal College of Physicians (RCP) is undertaking a development project to inform the specification of, and conduct the foundation work needed for, a national asthma audit.

The project will include development and piloting of core adult and paediatric datasets, and exploration of how primary care information could be incorporated to provide a complete picture of the asthma care pathway. The asthma project team are currently recruiting hospital pilot sites, including specialist paediatric hospitals, within England and Wales for an autumn 2017 pilot to test all proposed questions in a real life clinical setting. Data will be collected at the point of discharge to reduce clinical burden and these hospitals will have the unique opportunity to be actively involved in the development of the audit. For further information about becoming a pilot site please contact [asthmaauditdevelopmentproject@rcplondon.ac.uk](mailto:asthmaauditdevelopmentproject@rcplondon.ac.uk).

This is not associated with PICANet directly in any way, please contact the organisers rather than PICANet if you have questions.

## RCPCH STROKE

Healthcare professionals, parents and young people are being urged to familiarise themselves with the signs of childhood stroke to help prevent potentially devastating effects, as a new clinical guideline from the Royal College of Paediatrics and Child Health (RCPCH) and the Stroke Association launched on 24<sup>th</sup> May.

The guidelines are available at [www.rcpch.ac.uk/stroke-guideline](http://www.rcpch.ac.uk/stroke-guideline)

- The **PICANet Annual Meeting** is Thursday **2<sup>nd</sup> November** 2017 at The Woodhouse Suite, University House, The University of **Leeds**. Please register online [here](#). More details are available on the [website](#) .

The PICANet Audit is commissioned by the Healthcare Quality Improvement Partnership (HQIP) as part of the National Clinical Audit Programme (NCA). HQIP is led by a consortium of the Academy of Medical Royal Colleges, the Royal College of Nursing and National Voices. Its aim is to promote quality improvement, and in particular to increase the impact that clinical audit has on healthcare quality in England and Wales. HQIP holds the contract to manage and develop the NCA Programme, comprising more than 30 clinical audits that cover care provided to people with a wide range of medical, surgical and mental health conditions. The PICANet Audit is funded by NHS England, NHS Wales, NHS Lothian/National Service Division NHS Scotland, and the Royal Belfast Hospital for Sick Children, The National Office of Clinical Audit (NOCA), Republic of Ireland and HCA Healthcare.
